

# SECURITY SCANNING RESELLER

powering Clone Guard® Security Scanning

Security Scanning  
Reseller

Provide certified Payment Card Industry (PCI) scanning and penetration testing services directly to your customers via a dedicated white-labelled portal or API integration by becoming a Clone Systems' **Security Scanning Reseller**

Resell robust security scanning solutions that meet your customer's business requirements and strengthen their security posture

- ✓ **PCI security scanning solution** from an Approved Scanning Vendor (ASV) that enables your customer's to comply with the relevant PCI data security standards requirements and safeguard their data
- ✓ **Penetration testing services** that perform real world attack simulations on your customer's infrastructure to identify existing vulnerabilities and obtain recommendations on how to improve their overall security posture
- ✓ **Competitive volume pricing** that scales with your business needs

A web based portal that promotes your brand and leverages the infrastructure, expertise, and certifications of Clone Systems

- ✓ **Easy to use self-managed web-based scanning portal** which enables your customers to schedule and run security scans
- ✓ **Unlimited re-scans** on your network to assess steps taken to fix vulnerabilities
- ✓ **Threat intelligence and signature updates** consistently updated from multiple security sources to protect against emerging threats and vulnerabilities

Help your customer's meet their compliance requirements with branded reports that are certified and validated by Clone Systems

- ✓ **Certified reports** available after scanning their internal and/or external infrastructure
