

GDPR COMPLIANCE SCANNING

powering Clone Guard® Security Scanning

Assess the security and integrity of your infrastructure against the General Data Protection Regulation to identify vulnerabilities and obtain recommendations on how to improve your overall security posture with Clone Systems' **GDPR Compliance Scanning**

Leverage a robust GDPR compliance scanning solution from a Vendor with over a decade of experience with PCI Compliance Scanning

- ✓ **Easy to use self-managed web-based scanning portal** which enables you to schedule and run scans as needed
- ✓ **Analyze your solutions and infrastructure that store, process, and transmit personal data** for threats and vulnerabilities that could expose this sensitive data

Minimize the risk of compromise of personal data and the potential fines and impact on your organization

- ✓ **Detailed remediation steps for protecting against identified vulnerabilities** detected during your GDPR security scan
- ✓ **Unlimited re-scans** on your network to assess steps taken to fix vulnerabilities
- ✓ **Threat intelligence and signature updates** consistently updated from multiple security sources to protect against emerging threats and vulnerabilities

Obtain executive level and detailed technical reporting for the vulnerabilities that exist in your infrastructure

- ✓ **Pass report** after assessing there are no existing high or medium level vulnerabilities in your environment
